# From our customers

We use Checkpoint Learning for setting up all internal trainings and provide our professionals access to quality, on-demand courses. As a Training Coordinator, Checkpoint Learning makes my job much easier.

I have a list of things I like about the new Checkpoint Learning system, but my favorite has to be the attachment feature for external certificates. This has helped us to become more organized while saving time (and expenses) by keeping all CPE history in one location.

The staff at Thomson Reuters keeps up to date on all state rules and regulations so you don't have to, and you can always get in touch with someone when you have questions.

**By far, the best customer service I've experienced with any vendor.**

– Tamara Carr-Granstrom, Los Angeles, CA

Being in public accounting, it is difficult to find the time to attend many live seminars, therefore, I use self-study formats whenever possible. Checkpoint Learning by far is the best. I no longer have to track what courses I have taken and when I took them. It is all done for me through Checkpoint Learning. If I need to access my course completion certificates, all I need to do is sign on to my online account and there it is under the Activity History tab. **Convenient and easy to use.**

– Teresa Kerbe

**I really like my Checkpoint Learning subscription!** Checkpoint Learning lets me know conveniently in one place how close I am to meeting my CPE requirements for multiple licenses. There is a great variety of course topics, delivery methods, and hours offered per course. Video and audio clips, diagrams, and questions reinforce learning. The annual subscription price is very affordable, and the quality of the courses is very high.

– James O. (Joe) Bailey, CPA, EA

Just wanted to comment on how much I am enjoying the Premier Package for my CPE needs. **This is the best deal ever!** I encourage anyone who is interested in learning and earning CPE credits to check out this great deal. I've learned so much from the webinars and have done some of the self-study courses as well.
